

■ St. Henrys' Ecumenical Art Chapel, Turku 2005

■ Finnish Pavilion, Seville World Fair 1992

From an Idea to a Building

The Saskatchewan Association of Architects is pleased to host a public lecture with guest speaker and award winning architect:

Matti Sanaksenaho

Architect and Professor
HELSINKI, FINLAND

Matti Sanaksenaho has participated in many national and international exhibitions that include three times at the Venice Biennale of Architecture. He was awarded the State Prize of Architecture of Finland in 1992 together with group Monark, Reima Pietilä, the culture award of the church 2005 and the International Grand Prix of Architecture Barbara Cappochin 2007.

■ This public lecture will feature the projects of Matti and Pirjo Sanaksenaho. The Finnish based architect will discuss the process of designing buildings with an emphasis on the poetic and conceptual potential of architecture. Learn where his inspiration comes from and how his ideas are developed into realized buildings.

Matti is a Finnish architect and the co-founder of Sanaksenaho Architects based in Helsinki, Finland. He has been a guest professor at the Architect School of Århus, Denmark and was nominated Professor at Oulu University, Department of Architecture. He has given guest lectures in several universities and seminars throughout Europe, the United States, Japan and China. He has won several architectural competitions nationally and internationally and has been chief designer in over twenty realized buildings. His most notable buildings include: Finnish Pavilion in Sevilla world fair 1992 together with group Monark, The Student Center in Vaasa 1998, St. Henry's Ecumenical Art Chapel in Turku 2005 and The Student Health Care Building in Helsinki 2010. Please join us for this inspiring presentation.
